

## 2019 Canada Winter Games Synchronized Swimming Technical Package

Technical Packages are a critical part of the Canada Games. They guide the selection of athletes by prescribing the age and eligibility requirements, assist the organizing committees by detailing tournament formats and scoring procedures, assist Chefs de Mission in verifying eligibility, help with budgeting by describing the number of participants permitted, advance coaching certification by stating minimum requirements and generally contribute to athlete development by identifying each National Sport Organization's (NSO) version of athletes in the "training to compete" phase of its Long Term Athlete Development Model (LTAD), or other suitable phase of the model as justified by the NSO, discussed with the LTAD expert group, and approved by the Canada Games Council (CGC) Sport Committee.

Every Games' coach, manager, Sport Chairperson and Mission staff has an obligation to read and understand every aspect of the Technical Package. Failure to do so could cost an athlete his or her eligibility for the Games or could affect final standings or the conduct of the competition. If someone does not understand an aspect of a Technical Package, he or she is to seek clarification from the CGC Sport Committee through his or her Chef de Mission or NSO.

Technical Packages are developed 36 to 24 months prior to Games primarily by NSOs, following principles outlined in this document, guidelines and requirements of the CGC. As the overall governing body of the Games, the CGC has the ultimate authority over Technical Packages, but this authority is exercised only with the knowledge and understanding of the concerned NSO. Generally, Technical Packages are developed by sport, but in certain cases may be developed by discipline.

If an individual wishes to seek clarification or initiate a change to a Technical Package leading up to a Games, the request should be first directed to the NSO or the Chef de Mission. The NSO or Chef de Mission will evaluate the merits of the request and will, if it has merit, submit the requested change or clarification to the CGC's Sport Division for consideration. The NSO or Chef de Mission will submit the rationale for the request. Changes to age groups, eligibility requirements, team sizes or staff complements will not be considered after 36 months prior to the Games. Additions or changes to events/competition formats that result in a significant cost increase to the Host Society will not be considered after 24 months before the Games, unless approved by the CGC and the Host Society. Substantive changes to events or competition formats will not be considered after 18 months before the Games, unless approved by all participating provincial/territorial associations and the CGC. Minor corrections will be considered at almost any time, but will be increasingly difficult to achieve within six months of the Games. These time frames reinforce the importance of complete understanding of the Technical Package by Games' participants early.

### **APPENDIX 3 – PERFORMANCE GUIDELINES**

The following Performance Guidelines have been established by the respective National Sport Organizations, at the request of the Canada Games Council and the Federal-Provincial/Territorial Sport Committee (FPTSC,) to reflect the expected training and/or performance parameters of a typical Canada Games athlete in the Training to Compete phase of LTAD. These Performance Guidelines have been developed as a tool for P/T teams to use at their discretion in the training and selection of their Canada Games teams.

These Guidelines are not required selection criteria.

Synchro Canada recognizes regional differences on how athletes are selected for the Canada Games. Below are some guidelines for Provinces and Territories to follow around the type of athletes accessing the Canada Games.

1. Provincial/Territorial Teams at Canada Games should include the best athletes within the chosen stage of development or age group. In the case of synchronized swimming, the Train to Compete Stage of Development has been identified as the ideal stage of development for the Canada Games.
2. Selected pool of athletes should all have the opportunity to try out for the Provincial/Territorial Canada Games Team. No club team or Regional Training Centre can enter the Canada Games.
3. Potential athletes should be athletes involved in the National Stream in their respective Provinces/Territories and/or related Provincial/Territorial programs.
4. Potential athletes should be training on an annual basis as part of an RTC, a Podium Club program, a school based program or any other high-performance environment.
5. Potential athletes should be engaged in a daily training environment with the technical, tactical, physical and mental aspects being considered on an annual basis and with an off-season training protocol.
6. Potential athletes must be training a minimum of one technical program (solo, duet or team).

## APPENDIX 4 – AGE DISPENSATION

The decision to set a minimum age for participation in the Canada Games was made in the best interest of the young competitive synchronized swimmers across Canada. It is intended to protect very young athletes from possible physical, psychological and/or emotional harm that could occur by competing at the Games and is based on the following rationale:

1. Two of the main goals of the Canada Games are to foster participation from across the country and to contribute to the development of high performance athletes.
2. The Canada Winter Games competition is classified as a “junior” level competition by Canada Games Council and Synchro Canada.
3. The minimum age requirement is aligned on the minimum age set by the international synchronized swimming body (FINA) for the Junior World Championships competition.
4. The multi-sport nature of this event, combined with the atmosphere and social reality of a “Games village” and the wide range in age of all the athletes (up to 25 years of age depending on the sport) add to the pressure experienced by the athletes. ☒
5. Synchro Canada does not currently require athletes to meet any performance standard to participate in the Canada Games. For this reason, the Council has requested that a process be put in place to provide a dispensation from the minimum age. This process supersedes the Technical Package.

If your provincial/territorial Synchro Organization wishes to request a special dispensation from the minimum age requirement for an athlete who is 14 years of age (born in 2005), the following documents must arrive at the Synchro Canada national office no later than **January 5, 2019**.

1. A letter of support from the respective provincial or territorial synchronized swimming organization.
2. A letter of support from the respective Chef de Mission for the 2019 Canada Games.
3. A letter from the athlete’s coach and a letter from the athlete’s pediatrician or family doctor (if the athlete no longer uses a pediatrician) confirming that the athlete is at the appropriate level of physical and mental development to handle the level and intensity of the Canada Games competition.
4. P/TSO CWGs training program outlining LTAD appropriate training for the athlete in the year leading up to and including the Games.
5. A Participant Agreement form signed by the athlete’s parents or guardians saving harmless Synchro Canada and the Canada Games Council from any injury which might result from her competing against older athletes. The blank waiver is part of this Appendix.
6. Recent competition results demonstrating that the athlete has obtained results comparable or superior to those of the age eligible athletes, which have been selected to the respective team for the Games.

The Chief Sport Officer will convene a committee to review applications. The dispensation will be granted only if all the conditions have been met. The decision is final and will be communicated to the

applicant within 10 working days of receipt of **all** the above documents.
